

ITS California and California Transportation Foundation 2020 Scholarships

For Studies in Intelligent Transportation Systems (ITS)

AWARD: Two scholarships to advance academic studies and careers in the field of ITS. Eligible students must be Masters/Ph.D. students in an accredited university in California, studying any ITS-related field including transportation planning, engineering, transportation planning.

VALUE: \$5,000 each for the 2020 – 2021 academic year.

Application Requirements:

Selection will be based on academic ability, stated career objectives and interests, and supporting letters of reference. International students on F-1 and J-1 visas will be considered. To be eligible, candidates must provide:

1. Official and most recent transcript showing courses relevant to ITS.
2. List of courses with which the candidate is current enrolled.
3. Proposed or current list of courses enrolled for the 2020 – 2021 academic year.
4. Evidence of registration and/or acceptance for study in an undergraduate or graduate program at an ABET- or WASC-accredited California university.
5. Two (2) letters of reference that include assessment of the candidate's academic ability and record, commitment to a career in the ITS and any other personal attributes which indicate that the candidate is worth of the award. The letters should also describe scholastic performance and research, work or other activities related to ITS.
6. An essay not to exceed 500 words, covering motivation for working in ITS field(s) and describing how candidate grew interested in the topic(s).

Application Deadline: April 3, 2020

Applications must meet all the requirements to be considered. Incomplete applications will not be reviewed.
